

COOL-TEX®

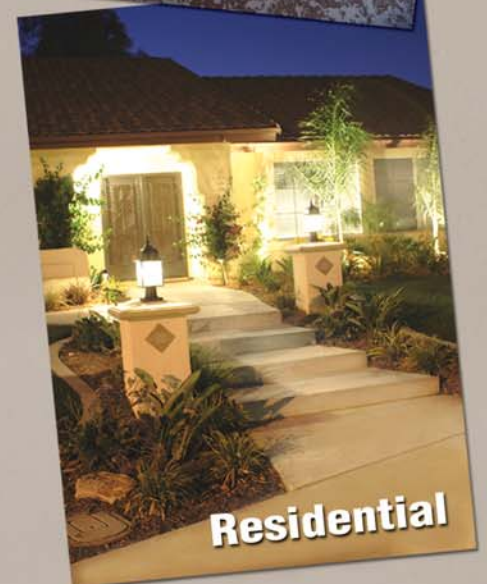

Heat Reflective* Concrete Floor & Deck Coating System

Garage Floors • Patios
Walkways • Balconies
Ramps • Recreational Areas
Aquatic Centers

Features & Benefits

- Advanced heat-reflective technology gives a cooler walking surface, even with darker colors.*
- Withstands spills from gasoline, brake fluid, oil, soaps and other automotive chemicals. Resists hot tire pickup and staining.
- Long lasting durability, resistance to stains and scratches.
- Mildew, fungus, and algae resistance means less maintenance.
- Fade resistant, available in Roll-On, Splatter or Lace finishes.
- High-performance, near-zero VOC, water-based epoxy coating.
- Only for application to bare concrete.
- Base coat available in 4 gallon & 1 gallon kits.
- CLEAR-COTE available in 0.9 gallon kits.
- Caution should be used when walking on any coated surface when it gets wet. Splatter or lace finishes, not the smooth roll-on finish, should be used for all applications where water is present.

Today's Requirements in floor coatings have become complex

In addition to the expected aesthetic qualities, COOL-TEX® also provides outstanding chemical resistance, superior cleanability and extended life cycle. Owners, managers and design professionals are challenged to select products that meet all these requirements. COOL-TEX® features a revolutionary technology that reflects the sun's heat back into the atmosphere when applied to exterior surfaces, making decks cooler and fade-resistant even in dark colors and meeting all requirements set forth today. The unique COOL-TEX® System creates one of the most durable surfaces available.

Available in 16 standard colors and with Roll-On Smooth, Splatter and Lace Finishes

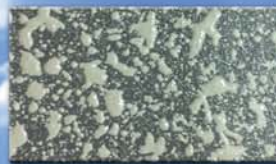

COOL-TEX® can be applied in Multiple Textures & Finishes
